Subject: The Magna Carta wall

As one of the Mayor of Bath's Honorary Guides I am very concerned at the prospect of the City losing such a unique feature. I would have thought that any company owning the building would be proud to advertise that fact in some way.

I include the Magna Carta Wall as part of my weekly walk with visitors from all over the world which always creates enormous interest and discussions.

To move it would destroy the reason why that particular idea was chosen in the first place, and any windows set in the wall would not enhance the view for the patrons in any way.

I hope the proposals become more widely known to enable more people to voice their views.

With kind regards,
