

Misfeasance in a public office

Papers in the County Court to hold Ms F. Haeberling accountable for misconduct when misdirecting the evidence away that the Government Office for the South West & Department for Transport confirmed motion lost not Motion not carried.

These Letters obtained, under the Freedom of Information Act tell their own story of her complicitness in strenuously ignoring and time after time driving horse and cart through each dept's findings & balanced views & conclusions, in office Ms Haeberling has had every opportunity made available to her, to admit that motion lost is not motion not carried as confirmed by both those letters

I dearly hope that the county court will rise to the expected level of judiciary, and save people from the upset they are currently experiencing and going through, its a disgrace and peoples expectations & hopes, accordingly deserve far far better

Ms Haeberling is contributing to the damage & destruction of conservation areas peoples' gardens and grassed pedestrian corridors right of way

I accordingly apply to the County Court for an injunctory remedy that serves to prevent Ms F Haeberling and all other officers of Bath & North East Somerset Council from carrying out the intended act of causing criminal damage to conservation areas and pedestrian corridors right of ways affected in application No. 09/00307/EREGO3, Item 1 Newbridge Park & Ride.

Yours sincerely,

Carlo Antonio Ambrosino
